Parinama Academy

Welcome to Parinama Academy Monthly Program. Singapore Math, Chess, Coding and Common Core English are the 4 programs offered in our Monthly Program. Please sign up at https://squareup.com/store/kenai-parinama-academy/item/monthly-program

Week by week Schedule (RLAD Methodology based on Agile scrum for education)

1. Week 1- Review of previous Month progress
2. Week 2 – Lesson plan review
3. Week 3 – Assessment
4. Week 4 – Demo

Small class size - Our classes will typically have 3-4 kids per teacher and will not exceed 6 students per teacher

Personalized lesson plan - Each kid will have her/his own personalized lesson plan

Orientation and review on demand - Parents can schedule and attend their orientation and or review with Student success manager by emailing meena@parinama.academy

Teacher assignment - Teachers are assigned based on skill and availability.Parents cannot choose a specific teacher and can consider Private classes provide this option.

Makeup Policy - Makeups are not offered for this program, and Optional classes can be used for Makeups based on availability

Resources - Google classroom will be used for tracking coursework along with workbook and worksheets

Scheduled classes - Your Kid will get 4 Scheduled classes of 1.5 Hours each. This schedule will be signed by our institution and by you and can be changed once in 3 months. (**6 Hour a Month Total**).

1. Teachers will teach for 30min
2. Kids will work out independently for 30min
3. Work for IXL/ChessKid – On Computer for 30min. We will need data from these systems to personalize the lesson plan

Optional Classes – You can book optional hours for Makeup or for add on classes for a small booking fee. (**4 Hour a Month Total subject to availability)**

Parinama Academy

Hi all.

We follow Agile scrum metrology for Education.

You can learn about agile scrum from this link in 7 min video

https://youtu.be/9TycLR0TqFA

Parinama has created this framework for education and we have the following 4 main steps for each month

RLAD

Week 1- Review last month progress with parent and kid

Week 2- lesson plan to be handed and signed by each parent

Week 3- Assessment for each kid based on concepts taught

Week 4- Demo the output to parent

Each of these shouldn't take more than 5-10 min each week

This is week 2 for the month. Please work with your teachers or meena@parinama.academy to ensure what must be taught his month for each kid.

Parinama Academy
