

VARSHA

MATH & COMPUTER SCIENCE
INSTRUCTOR

SKILLS & INTERESTS

- Strong foundation in Math and Computer Science
- Effective Communication & Classroom Management
- Critical Thinking & Problem-Solving
- Passion for Student Growth & Development
- Curriculum Design & Lesson Planning

PROFILE

With years of experience in teaching Math and Computer Science, I am passionate about helping middle and high school students become confident, capable learners. I focus on building strong foundations in mathematics, encouraging critical thinking, and providing the right balance of challenge and support to ensure students succeed. I believe that with the right guidance, every student can excel in an engaging and positive learning environment.

EXPERIENCE

Parinama Academy

- Teach Math and Computer Science to middle and high school students.
- Focus on building a strong foundation in both subjects while fostering critical thinking skills.
- Provide personalized guidance and support to ensure each student's academic growth.
- Develop engaging lesson plans and interactive learning materials.
- Use a variety of teaching methods to challenge and support students at different learning levels.

TEACHING APPROACH

- Focus on building strong conceptual understanding in Math and Computer Science.
- Encourage critical thinking and problem-solving through real-world examples.
- Adapt lessons to match each student's learning pace and style.
- Create an engaging, positive, and interactive classroom environment.
- Emphasize both academic excellence and confidence-building.
- Inspire curiosity and a lifelong interest in learning.
